Cathy, Gina, and Sheryl

Attached is an annotated outline we are using for the report to congress that is due on June 19th of this year. This report is an update to the December 2019 report. We are asking that you please provide updates to the information that is highlighted in yellow in the attached outline, which are topics that you guys authored in the December report. The December report is also attached for your reference. We plan to talk this through at tomorrow's 8:00 ESA meeting. We anticipate this update report being shorter than the previous one, and we don't anticipate that the updates will be very laborious. We are asking for your input by COB next week (April 3rd). We will incorporate your edits into the report and send a first draft to you guys for comments soon after that. The full schedule is included in the attached document.

Please let me know if you have any questions or concerns.

Brian
